**NEW DECADE MCC MIDSIZE**  
Golf Pride's most popular grip in midsize for larger hands.

**NEW DECADE MCC WHITEOUT**  
New Decade MCC Whiteout grips feature white material in top half of grip with black cord for all-weather control and responsiveness.

**NEW DECADE MCC (MULTICOMPOUND)**  
Golf Pride's most popular grip. This innovative hybrid grip fuses the positive performance of rubber and cord for an exciting new look and feel. The Multi-Compound boasts Golf Pride's exclusive black Velvet Cord in the upper hand area for firm all-weather control, and a soft rubber material in the lower area.

**VDR**  
The VDR revolutionizes grip feel and performance with new triple-texture technology. Featuring three depths of surface grip texture, the VDR is specifically designed for heightened traction and excellent all-weather performance. The precision-cut, variable depth texture, combined with a shock-reducing rubber compound provides wrist protection from off-center strikes.

**TOUR WRAP 2G**  
With a modernized look and fresh, new colors, the Tour Wrap 2G now features enhanced tackiness and an even softer material for a great new feel. This onepiece, simulated wrap grip combines the look and feel of luxury leather with the durability, economy, and performance of hightack rubber.

**TOUR VELVET BCT**  
The Tour Velvet BCT (Brushed Cotton Technology) cord grip is constructed with tighterweave cotton twill fiber that offers great traction and allweather performance, but with new improved feel for the ultimate in comfort.

**TOUR VELVET 360**  
Features the proven performance of the Tour Velvet with 360 degree design for use with adjustable drivers, fairway woods, hybrids. Adjust shaft to any position and look of grip remains consistent Tour Velvet look and feel.

**TOUR VELVET**  
The most popular grip in golf today combines an exclusive, state-of-the-art rubber-blend compound with a computer-designed, nons-lip surface pattern for maximum playability, comfort, and confidence. The Tour Velvet is the standard upon which many club manufacturers base their designs.

---

**TOUR 25**  
The Tour 25 is the lightest rubber grip in the category. Increase swing weight 4-5 points on standard weighted clubs or as a replacement for lightweight OEM drivers.

**Z-GRIP**  
The Z-Grip Cord features aggressive textural design for ultimate feedback and control. The new Z-Grip Patriot proudly represents the red, white and blue in an all-rubber construction.

**DUAL DUROMETER**  
The Dual Durometer's firm inner layer optimizes control and feedback while the soft, high-traction outer skin maximizes comfort and feel.

**LEADBETTER TRAINING GRIP**  
An excellent practice tool for learning and reinforcing the mechanics and feel of proper hand placement on the club.

**PUTTER GRIPS**  
Features the unique design and proven playability that Golf Pride is known for.

**GOLF PRIDE BELLY GRIP**  
New from Golf Pride, the B-140 belly putter grip is manufactured with high-performance lightweight material, combined with a micro-texture, to give golfers increased feel on the greens. A 21-inch flat paddle construction allows players to utilize several gripping styles to produce a consistent roll. This unique design structure is optimized for easy installation.

CROSSLINE ACE WITH 3GEN

The classic design of the Crossline grip joins forces with the innovative ACE 3GEN compound to deliver a softer and tackier high-traction grip.

R.E.L. WITH 3GEN

The R.E.L. with 3GEN features Lamkin's proven functional and innovative 3GEN synthetic rubber compound that can help golfers improve control of their swings. The R.E.L. with 3GEN is Lamkin's latest premium grip for all woods and irons that combines this revolutionary material with a distinctive surface pattern. Both of these aspects together gracefully allow the golfer to apply very light grip pressure and gain more control of the club throughout the golf swing.

CROSSLINE

Lamkin's most popular grip. The pattern is recognizable. The performance is unmistakable. The proprietary M2 rubber compound adds tack and reduces stress while the distinctive pattern reduces torque and increases hand traction for the ultimate performance grip. Reformulated materials and softer composition offer tour performance that's easier on the hand.

X10

A low-profile grip at a great price. The X10 is made of a durable proprietary synthetic rubber material. Features hand positioning guides and a well spaced surface pattern.

TRAINING GRIP

The Lamkin Training Grips are designed to help golfers improve their shot-making abilities by teaching players the proper hand and finger positioning for the ideal golf swing.

ARTHRITIC GRIP

The Lamkin arthritic grip's 'nubbed' texture and slightly larger size reduce hand pressure and help minimize the effort arthritic golfers exert to hold the club.

**i6 3GEN**

Enjoy the confidence of cord without the cost of cord. i6 combines two distinct surface patterns to maximise traction and comfort. The underside of the grip features an aggressive hexagonal pattern to promote a slip free connection in any weather condition. The top side features a softer feeling keyhole design that improves contact tackiness with your palms without a rough feel through the shot.

KERN  
GOLF

**E.B.L. PUTTER GRIP**

Made of Lamkin's proprietary 3GEN material, which reduces any vibration without dulling the feel of the putt. This allows you to keep your forearms relaxed, apply very light grip pressure and minimize hand tension for smooth, consistent strokes.

**CROSSLINE PADDLE PUTTER GRIP**

The Crossline Paddle combines the paddle and pistol shapes. Thick around the back and flat on top to round at the end.

SPECIAL TRIM NOTES

- A.** For M1 metal woods add 1 1/2" tip trimming, for M2 metal woods add 1" tip trimming, for blind bore add 1/2" tip trimming, for through bore do not add to tip trimming. (Applies only to those shafts which have a Trim Note A next to the letter code)

**B.** For non-bore through iron heads, trim 1" additionally from the tip. (Applies to True Temper's TT Lite R&S iron shafts only!)
- C.** For fairway woods, tip trim 1" (Applies to certain Aldila wood shaft only!)

**D.** Do not tip trim more than 3" off the tip (applies to Select New Image woods and junior composite woods only!)

**E.** For the Acer XS Leggera or XF Leggera driver take 1" less off the tip than suggested

**F.** For blind bore fairway woods tip trim 0.5" and for thru bore clubs only insert tip 2"
- G.** For blind bore tip trim 0.5" less than stated and for thru bore take 1" less off than stated

**H.** For thru bore driver insert tip 2" only and for thru bore 5-9 wood tip trim 0.5"

TRIMMING INSTRUCTIONS

irons & hybrids

**Hybrids Special note** Some hybrid shafts are trimmed based on the loft of the club. For those that are not or if you are using an iron shaft, tip trim based on the clubhead weight. For the length on all hybrids, use the clubhead weight to determine the proper length. Not all hybrids will weigh the same, thus special attention must be made for this category.
